Flyus search is built right into the SmartBook portal. Search everything from oneways to multi-city trips.

The screenshot shows the Flyus SmartBook portal search interface. At the top, there is a navigation bar with six tabs: "Hotel Reservations", "Meeting Space", "Car Rental", "Flights", "Group Travel", and "Car/Ground Service". The "Hotel Reservations" tab is currently selected. Below the navigation bar, the text "Where do you want to be near?" is displayed. To the right of this text is a link that says "View Existing Reservation". Below the text is a large white input field with the placeholder text "Destination, hotel, landmark or address". Below the input field, there are three fields: "Check-In Date", "Check-Out Date", and "Number of Rooms". The "Check-In Date" and "Check-Out Date" fields each have a "Choose Date" button and a calendar icon. The "Number of Rooms" field has a text input with the value "1". To the right of these fields is a large blue "Continue" button.
