

## Global Leader in Commission Management & Reporting

With over 25 years of experience, we have developed in-depth relationships with over 75,000 hotels worldwide, ensuring seamless services for our mutual customers.

### Who We Are

CTS Systems is a leading solution provider for collecting, managing, reconciling, and reporting commissionable revenue in the hospitality and travel sectors. With expertise across a broad spectrum of revenue management solutions, the CTS Systems team delivers a suite of services - ranging from basic reporting to complete financial management systems, including payment reconciliation for aging commissionable revenue and critical reporting of non-commissionable channels.

### Why Choose Us

#### Track Record

With over 50 million transactions processed annually, CTS Systems provides unprecedented value for its clients, handling over \$7.1 billion in travel revenues.

#### Uncompromising Collection

Invoicing and actively pursuing every single room night. We won't idly wait to get paid. We will track down past due commissions (commissions owed up to 24 months).

#### Flexible Reporting

Ability to manage agents online with collections, reporting, and commission claiming efficiently. Ability to combine group/meeting and transient data for comprehensive reporting.

### Highlights

#### Core Commission

- Live collection & reporting
- Historical collection
- MICE collection

#### Differentiators

- No set up, admin, or hidden fees
- 50% lower cost than our competitors
- Service customization

#### Transparency

- We have built a company based on transparency, collecting commissions from hotels, car rental agencies, tour operators, and cruise lines, providing data and reporting to determine future bookings.

#### Data Analytics

- Data from GDS bookings can be used to identify agents who don't drive invoices into back office.
- Our team will chase bookings that never make it to the back office with rate codes to dispute and audit hotels.
